Health, Luxury, and Economy, MAY BE SECURED BY HAVING YOUR

FEATHER BEDS RENOVA-TED.

THIS is done by a Steam Process, patented Ang. 6th, 1867, and net only makes them crean and who esome, which prevents sickness but relieves each norp from its matted condition, increasing the built of the heat oftenmars one half, thereby rendering them more ingurious. In fact it is everything essential to old or new FEATHER BEDS,

Destroying ail mo hs, or liability to them, removing all disagreeable scent, (common among new feathers,) and all gummy and glutinous substance from the quilt; thereby preserving them from the effects of long usage.

We would, therefore, say to the entreme of this place that we are among them for a few days, to render them an essential benefit. Our facilities are such that, upon being nighted to do so, we can take and return beds the same day, well renovated and ready for immediate use, for *2 per bed, including pillow and bolster, if suitable to run with the bed.
